SITE SELECTION CRITERIA

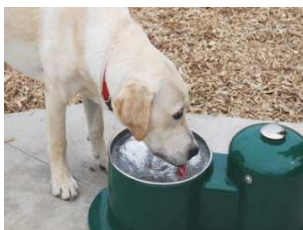

1. Identify and evaluate publicly owned property (City, NORA, etc.) not in close proximity to sensitive areas (i.e. schools, hospitals, wildlife habitat, etc.)
2. Located near a supporting infrastructure (i.e. water supply & electric) that will allow easy site development/build out and long term maintenance.
3. Located (where possible) in proximity to current (unofficial) dog use locations.
4. Determine if there are current/active or planned people programs/uses for proposed parks
5. Determine spatial requirements for planned programming and mixed use activities.
6. Allocate remaining space and determine if it meets set criteria for dog parks or dog runs.
7. Evaluate survey, email and petition information and relate to the above listed criteria.

An aerial photograph of a neighborhood in Savannah, Georgia. The central feature is a large, rectangular, fenced-in area labeled 'Central Playground'. The ground inside the fence appears to be a mix of dirt and grass, with some trees and a few people visible. Surrounding the playground are residential buildings of various styles, including houses with gabled roofs and larger multi-story structures. Streets are visible: 'Georgia St' runs along the top left, 'Barretts St' runs along the top right, and 'Lincoln St' runs along the bottom right. The overall scene depicts a typical urban residential area with a central public space.
